

# Arkansas Technology Transfer **WEBINAR SERIES**

## **Asphalt Paving – Part 1** Equipment & Preparation

*September 15, 2021, 9:00 – 11:00am*

This 2-hour webinar Introduces the equipment and preparation steps necessary for a quality asphalt paving project. Calculations for estimating mix quantities and needed equipment are also included.

## **Asphalt Paving – Part 2** Placement & Compaction

*September 23, 2021, 9:00 – 11:00am*

This course continues the discussion of best practices in asphalt paving, specifically focusing on placement and compaction. Longitudinal joints and construction joints are also included, as well as inspection and troubleshooting.

## **Pavement Distresses** Identification & Measurement

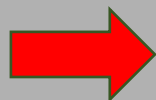

*October 12, 2021, 1:30 – 3:30pm*

To properly repair a pavement, it is important to understand how and why it fails. This webinar discusses asphalt and concrete failures, causes, how to quantify them, and how to distinguish between structural and non-structural failures.

## **Pavement Management** Budgets & Strategies

*October 26, 2021, 1:30 – 3:30pm*

This course addresses concepts of network value, remaining service life, and project value index as an objective strategy for managing and maintaining a local road network within existing budget constraints.
